

Adapter Kits The connection between application and filtration system

Hydraulic Adapter

Drum Adapter

Tote Adapter

Gearbox Adapter

Features

- Replaceable breather with color-indicating desiccant
- Single-position vacuum indicator (Hydraulic and Gearbox Adapter Kits)
- Sample ports
- Quick connect plugs in various sizes
- Available in customizable colors to match your filtration system

Benefits

- Prohibits entry of dirt and moisture
- Allows for easy equipment adaptation and quick connection to a filtration system

To further enhance your lubrication standards, we recommend using Des-Case adapter kits. These kits incorporate quick connect fittings, desiccant breather filters and vacuum indicators, along with other customizable features, to function as the connection between your application and filtration system. Pairing fluid handling filtration with breather protection allows for maximum system integrity – requiring less equipment and labor while reducing system contamination.
